## HIGHSPEED WIFI ACCESS SPREESPEICHER

### CONNECTION VIA LAN (ethernet-cable)

In all our event venues there are 2 LAN connections with direct, wired access to the internet. You can connect your terminal device via cable with the internet.

### CONNECTION VIA WLAN HOTSPOT

You and your guests can also connect terminal devices to our WiFi hotspot "SPREESPEICHER GUEST". For the connection you will get vouchers with the login details from our leading service staff. The voucher can only be used for one device.

### CONNECTION VIA INDIVIDUAL WLAN NETWORK

We can also provide you with an individual network. You can choose the name and password (minimum 8 signs) of it. For the implementation for this network our IT service provider charges a fee of 50,00 € net.

---

### SPEED AND CONNECTIONS

Download speed: 100 Mbit/s\*  
Upload speed: 50 Mbit/s\*

Access Points: 1x Sophos AP50 / 5x Sophos AP55  
Number of connections: 500

### PLEASE NOTE EXCLUSIVE DATA LINE

Our Internet connection is available for all our event spaces and is divided by the number of users who use the data line at the same time. If you would like to have your own exclusive data line for your individual WiFi network, we can send you the prices for a separate data line (for different speeds) for your event. Please get in touch with us on time.

Please note that the speed via WiFi highly depends on the devices and never achieves the same speed as it can be via network cable. For live broadcasts and streaming we recommend the transmission via network cable.
